## 6-burner gas cooker on closed compartment S/70 120x70 cm

### Description

The professional cooker is the first item to be considered when setting up a restaurant kitchen.

### Professional gas cooker features

The professional gas cooker is equipped with 6 burners for simultaneous cooking of several dishes.

The gas supply allows both connection to the city's natural gas network and to LPG cylinders.

There are six switches and six nozzles, each for one fire point.

The structure is made entirely of stainless steel. The 6-burner cooker is CE marked.

### How to clean the professional six-burner gas cooker

The shaped surface of the fire points allows for easy cleaning of the cooking area.

Make sure that the machinery is switched off and the gas supply cut off. Wait for cooling before cleaning with a non-corrosive kitchen detergent and a soft sponge or cloth.
