2-burner gas cooker with pilot flame on open compartment 16 Kw 40x90x85h cm

Description

Gas cooker on 2-burner open compartment, stainless steel construction. Knobs made of athermic material with functional serigraphy on edge. Heating by means of watertight burners with stabilised flame and superimposed crown with different power ratings (6 kW and 10 kW). Each burner is equipped with a safety gas cock that allows the power to be regulated from maximum to minimum. Safety guaranteed by a thermocouple kept active by the pilot burner flame. Floor grates and burners made of matt enamelled cast iron resistant to alkalis, acids and fire. Floor grates positioned on a moulded pan with rounded edges for easy cleaning and protection against overflowing liquids. Top drain via overflow available on request to speed up cleaning. Moulded AISI 304 stainless steel worktop with rounded edges for easy cleaning. Stainless steel front, side and rear panelling. Laser-cut top finish to ensure a "head-to-head" coupling between tops and binding of tops to each other. Tested with methane or LPG gas according to user requirements. Height-adjustable stainless steel feet.

Dimensions

Dimensioni esterne	400x900x850 mm
