## Electric Convection Oven with Humidification 4 Baking Trays 429x345 mm

### Description

Ventilated electric convection oven with humidification. The small size and light weight of this oven make it perfect for those bakeries and pastry shops where space is a precious commodity and electricity a resource not to be abused. Fresh desserts or frozen brioches, sandwiches or pizzas, everything will be even tastier and tastier thanks to the practical indirect humidification system.
