## 4-burner gas cooker with pilot flame and 32 kW electric oven 80x90x85h cm

### Description

Stainless steel frame. Knobs made of athermal material with functional screen printing on the edge. Moulded, double-walled oven door and sturdy handle. Heating by means of sealed burners with stabilised flame and superimposed crown with different power ratings (6 kW and 10 kW). Each burner is equipped with a safety gas cock that allows the power to be adjusted from maximum to minimum. Safety guaranteed by a thermocouple kept active by the pilot burner flame. Floor grates and burners made of RAAF matt enamelled cast iron resistant to alkalis, acids and fire. Floor grates positioned on a moulded pan with rounded edges for easy cleaning and protection against overflowing liquids. Top drain via overflow available on request to speed up cleaning. Static electric oven 2/1 GN. AISI 430 stainless steel oven chamber and thick stainless steel floor. Removable stainless steel oven grid. Insulation of cooking chamber and oven door ensured by a layer of ceramic fibre resistant to high temperatures. Heating by means of heating elements placed under the sole and in the vault of the baking chamber. Oven temperature regulation between 90°C and 300°C by thermostat. Moulded AISI 304 stainless steel worktop with rounded edges with large radius for easy cleaning. Stainless steel front, side and rear panelling. Laser-cut top finish to ensure a "head-to-head" coupling between tops and binding of tops to each other. Tested with methane or LPG gas according to user requirements. Height-

adjustable stainless steel feet.

## Dimensions

Dimensioni esterne	800x900x850 mm
