

Cod: 111870021872937

**Electric cooker with 4 glass-ceramic countertop hobs 16 kW 80x90x25h cm**

## Description

Stainless steel frame. Knobs in athermal material with functional screen printing on edge. 6 mm thick black glass-ceramic top. Heating obtained thanks to 30x30 cm square irradiation plates with double power circuit fixed under glass and controlled by a thermostat with maximum temperature of 420°C: when the plate reaches the desired temperature, only one circuit remains in operation to prevent excessive cooling of the cooking zone. Protection guaranteed by a safety thermostat with automatic reset at 530°C integrated in the radiating plate. Worktop in 2 mm thick AISI 304 stainless steel with rounded edges for easy cleaning. AISI 304 stainless steel front cover. Laser-cut top finish to ensure a "head-to-head" combination of tops and binding of tops to each other.

## Dimensions

Dimensioni esterne	800x900x250 mm
