

Cod: 112300010142721

Electric cooker 2 induction hobs with open compartment 14 Kw 40x90x85h cm

Description

Stainless steel frame. Knobs in athermal material with functional serigraphy on the edge.

6 mm thick black ceramic glass top. **27 x 27 cm square radiant zones** fixed under glass and controlled by potentiometer with 9 power levels. Continuous adjustment of the heating power. **Under-glass** display to show the set power level and to display any error signals. Sensor protection against overheating in case of dry pan operation. Pot presence detection sensor. Pan detection sensor with a diameter of less than 12 cm.

20/10 thick AISI 304 stainless steel worktop with large radius rounded edges for easy cleaning. Stainless steel front cover.

Possibility of working with **any type of pan suitable for induction cooking**: iron, cast iron or other ferromagnetic material. Constant energy yield, even if different shaped utensils are used.

Significant time **and energy** savings due to **half the cooking time and energy consumption**

compared to conventional cooking systems. Improved working environment due to **reduced waste heat**.

Increased safety for the user: only the pans are heated while the worktop remains cold. The risk of burns is therefore greatly reduced.

Laser-cut top finish to ensure "head-to-toe" and binding of the tops to each other.

Height-adjustable stainless steel feet.

Dimensions

Dimensioni esterne	400x900x850 mm
