

Cod: 112470011012721

Gas fry top with open compartment smooth plate 6 kW 40x90x85h cm

Description

Stainless steel frame. Thermosetting, athermic plastic knobs with useful screen-printed edges.

Rapid temperature rise and heat retention by means of high-efficiency U-shaped burners with stabilised flame, suitable for working at high temperatures. U-shaped single-arm burners with optimised combustion, maximum tap, minimum safety thermocouple and pilot flame. Equipped with a safety gas cock that allows the flame to be adjusted from maximum to minimum and enables the hotplate to exceed 300°C. Thermal stability of the hotplate reached at maximum power at 350°C. Safety guaranteed by a thermocouple kept active by the burner flame.

Single large cooking plate allowing excellent heat transfer in terms of heating.

Smooth cooking plate.

Worktop inclined towards the fat drain hole. Large hole on the hob for draining fat into

a special container with a capacity of 2.9 litres located under the hob.

Cooktop made of thick AISI 304 with rounded edges and welded splash guards for easy cleaning. Front, side and back panels made of stainless steel.

Worktop finish made by laser cutting for "head-to-head" combination and fixing with edging.

Tested with methane or LPG gas.

Height-adjustable stainless steel legs .
