

Cod: 111900021512935

Countertop electric fry top 6.5 kW grooved plate 40x90x25h cm

Description

Stainless steel frame. Thermosetting, athermic plastic knobs with useful screen-printed edges.

Heating by means of tubular heating elements with stainless steel sheath placed in direct contact with the cooking plate. Temperature regulation by thermostat. Operating temperatures between 90°C and 300°C. Safety thermostat with manual reset against equipment malfunction.

Single, wide, thick cooking plate with a smooth finish for optimum heat transmission. Welded splash guard. The groove geometry of the grooved cooking plate is such that it can be cleaned with the smooth scraper used for cutting. The cooking plate is installed on the worktop at a slight angle to allow grease to flow towards the drain.

Ribbed cooking plate.

AISI 304 stainless steel worktop with rounded corners for easy cleaning. Stainless steel

front, side and back panels.

Large hole on the hob for draining grease into a large capacity container placed under the hob itself. Equipped as standard with grease collection container.

Worktop finish made by laser cutting for "head to head" combination and fixing with edging.

Height-adjustable stainless steel legs .

Dimensions

Dimensioni esterne	400x900x250 mm
