## Countertop electric fry top smooth plate 13 kW 80x90x25h cm

### Description

**Stainless steel frame. Knobs made of thermosetting, athermic plastic with useful screen-printed edges.**

**Heating by means of tubular heating elements with stainless steel sheath placed in direct contact with the cooking plate. Temperature regulation by thermostat. Operating temperatures between 90°C and 300°C. Manually reset safety thermostat against equipment malfunction.**

**Unique, thick cooking plate with a smooth finish for optimum heat transmission. Welded splash guard. The cooking plate is installed on the worktop with a slight inclination to allow fat to drain off.**

**Two different cooking zones, each with temperature control. Smooth cooking plate.**

**AISI 304 stainless steel worktop with rounded corners for easy cleaning. Stainless steel front, side and back panels.**

**Large hole on the hob for draining grease into a large capacity container placed under the hob itself. Equipped as standard with grease collection container.**

**Worktop finish made by laser cutting for "head to head" combination and fixing with edging.**

### **Dimensions**

Dimensioni esterne	800x900x250 mm
