Electric fry top with open compartment separate smooth lowered plates 14 kW 80x90x85h cm

Description

Stainless steel frame. Thermosetting, athermic plastic knobs with useful screen-printed edges.

Heating by means of radiant heating elements placed under the cooking plate. Thermostat for adjusting the plate temperature between 120°C and 320°C. Safety thermostat with manual reset.

Large-size lowered cooking plate, made of special stainless steel and machined with a smooth finish that allows excellent heat transmission and a mirror polished finish to guarantee non-stick food and quick cleaning in compliance with current regulations.

Two independent cooking zones, each equipped with temperature controls.

Smooth cooking plate.

Two completely separate cooking plates to guarantee the possibility of two completely different cooking processes at completely different temperatures.

Worktop sloping towards the grease drain hole. Two large holes on the hob for draining grease into two 2.9 litre capacity containers located below the hob .

Moulded worktop in AISI 304 stainless steel with rounded edges for easy cleaning. Front, side and back panels in stainless steel.

Worktop finished with laser cut for "head to toe" matching and fixing with edging.

Height-adjustable stainless steel legs .
