

Cod: 11563445197

Hollow ice cube maker capacity 2.8 l 0.12 kW

Description

Tired of waiting for the water to freeze on hot days when you want ice cubes as soon as possible? With the Princess ice maker you can make ice cubes whenever you want. You can easily adjust the settings on the LCD display to obtain small, medium and large ice cubes. The ice maker has a capacity of 2.8 litres and can hold up to 800 grams of ice cubes in the reservoir.

Fresh and delicious drinks during the summer

The Princess ice machine prepares up to 9 ice cubes in 10 minutes. It works fully automatically, so you only have to fill the water tank and wait for the ice cubes to fall into the container. Thanks to the window in the lid you can check the freezing process at any time to see when the ice cubes are ready.

Easy settings

The Princess ice machine has a digital LCD display that allows you to control it easily. You can set the freezing time and the size of the ice cubes. With the energy-saving timer you can program the ice machine to start and decide when you want the cubes to be ready.

Continuous supply of ice cubes during a party

When you organise a party, the Princess ice maker is really essential. Its compact size makes it suitable for all spaces. Thanks to the fully automatic operation you will have a continuous supply of ice cubes to surprise your guests with refreshing drinks at your next party.

Features:

- 9 ice cubes in 10 minutes for cold drinks
- Adjustable sizes: small, medium or large
- High capacity of 2.8 litres with reservoir for 800 g ice cubes
