

Cod: 545

## Multipurpose pasteuriser Capacity 3-6 litres

### Description

Multi-purpose pasteuriser for mixing, cooking, pasteurising and freezing any mixture or dough. Versatile and fast for any product requiring hot/cold heat treatment. Multilingual display with 10 preset cycles and 14 programmable production cycles for specific recipes. Adjustable times and temperatures allow any processing requirement to be met. Pasteurisation and freezing performed in a single cylinder, avoiding any handling or pouring, ensures maximum hygiene. A complete laboratory in a single machine.
