

Cod: 5112

Professional potato peeler Capacity 5 Kg

Description

They have been designed using the most modern techniques in both mechanical and electronic fields. They are made entirely of AISI304 stainless steel with plastic details of high mechanical resistance. They are equipped as standard with a side abrasive (easily removed by hand and without the use of tools) of a cast aluminium potato abrasive plate covered with a thick layer of carborundum. This professional version adopts a digital electronic board that manages all the controls, the solenoid valve for the water jet and the microswitch on the lid and discharge door.

Dimensions

Dimensioni esterne	440x520x520 mm
--------------------	----------------

Technical data

Alimentazione	Electric
Frequenza	50 Hz
Peso	28 kg
Potenza Elettrica	0.37 kW
Produzione Kg/24h	150 Kg/24h
Tempo ciclo	90 "
Voltaggio	400 V

Standard equipment

In dotazione	Piattello in carbonio e tela abrasiva laterale
