

Cod: 5176

Air-cooled counter-top ice cream maker tank capacity 5 litres

Description

Counter-top ice cream maker with a 5-litre tank capacity, equipped with sophisticated software that manages its operation. The user, in addition to the normal manual operation, has at his disposal: - 4 specific mantecation programmes (Classic Ice Cream - Semi-Soft Ice Cream - Granita - Rapid Chilling). - 4 specific preservation programmes that can be selected according to the different needs and characteristics of the product. These automatic programmes, as well as guaranteeing optimum results, make the machine completely autonomous, leaving the user free to devote himself to other activities. Control and regulation system of the freezing motor with electronic inverter, the inverter also allows you to vary the number of blade revolutions (from 55 to 115 rpm) so as to customise preparations to the maximum. The compact dimensions allow the freezing machine to be placed in any professional kitchen. Cleaning facilitated by the drain tap. AISI 304 stainless steel blade with adjustable scrapers. Production per cycle: every 12-15 minutes approx. 1.75 kg. Air cooling.

Dimensions

Dimensioni esterne	580x535x450 mm
