

Cod: 756

Sealing machine with 2x300 mm sealing bar

Description

Quick and easy to use sealing machines are indispensable in food packaging. They can seal 2 mm thick for a length of 300 or 400 mm all types of plastic food bags. The timer on the front allows sealing bags of different thicknesses, while the model equipped with a cutter allows the residual part of the bag to be removed. 230V power supply. Sealing bar 300 mm.

Dimensions

Dimensioni esterne	75x455x260 mm
Lunghezza sigillatura	2x300 mm

Technical data

Materiale sigillabile	ldpe, pp, ppe, pvc
Peso	3.5 kg
Potenza Elettrica	0.51 kW
Temperatura di sigillatura	150 °C
Tempo di sigillatura	2.5 "
