

Cod: 758

Sealing machine with 2x400 mm sealing bar and cutter

Description

Fast and easy-to-use sealing machines are indispensable in food packaging. They can seal 2 mm thick for a length of 300 or 400 mm all types of plastic food bags. The timer on the front allows sealing bags of different thicknesses, while the model equipped with a cutter allows the residual part of the bag to be removed. 230V power supply. 400 mm sealing bar WITH cutter

Dimensions

Dimensioni esterne	75x555x260 mm
Lunghezza	800 mm

Technical data

Alimentazione	Electric
Materiale sigillabile	ldpe, pp, ppe, pvc
Peso	4 kg
Potenza Elettrica	0.7 kW
Temperatura di sigillatura	150 °C
