

Cod: 6199

**Energy-saving stainless steel refrigerated freezer table 4 doors -22-17 °C  
2230x700x850 h mm**

## Description

**Quality, durability and versatility.** Decide to complete the furnishing of your premises with the right element: purchase the Ristoattrezzature **4-door stainless steel refrigerated freezer table** online and store all the ingredients for the preparation of your dishes correctly and functionally.

**Ideal for pastry shops, bakeries, pizzerias, restaurants, butcher shops, hotels,** this table can be used in all those businesses that need to store their food at low temperatures.

The **energy-efficient stainless steel refrigerated freezer table** is equipped with **4 hinged doors, a built-in motor and adjustable feet.**

This important work support is designed to guarantee high quality performance at all times of the day.

## Design and operation

The **stainless steel 4-door energy-efficient refrigerated freezer table** has a **design with clean, essential lines**. Aesthetically pleasing and suitable for every context. Extra attention is paid to the choice of materials.

The table is made entirely of **stainless steel**: an ideal material for kitchen worktops. **Adjustable steel feet allow it to be conveniently adapted** to personal needs, and the **self-closing doors** guarantee optimum food storage with an airtight seal. Easy to **clean and easy to replace**.

The **dimensions** of our table are **2230x700x850 mm** with an insulation thickness of 60 mm.

Refrigeration **uses the EBM ventilated cooling system**, which diffuses cold air in specific directions through a fan, allowing the refrigerator to reach an even temperature sooner.

The **operating temperature is negative: it fluctuates between -22 and -17 °C**. Our table is also equipped with the **'Dixell' digital thermostat**: a world-leading technology in electronic regulation and control in the refrigeration sector.

Embraco's tropicalized + 43°C compressor will allow the **energy-efficient 4-door stainless steel refrigerated freezer table** to function properly even at very high humidity levels. The **evaporator is anti-corrosion and automatic defrosting**.

## Refrigerated freezer table: cleaning and maintenance

The construction of our **energy-efficient 4-door stainless steel refrigerated freezer table** makes it easy to clean and maintain.

**The internal corners are rounded** to simplify this operation.

**The doors are complete with magnetic gaskets** to ensure an optimal seal, reduce energy waste and are easy to clean and replace.

## Why it's the right product for you

**Electricity consumption is certainly an important item in your expenses** and, within a kitchen, refrigeration is the basic activity but also the one that consumes the most electricity.

For this reason, **Ristoattrezzature offers refrigerated tables that are characterised by lower consumption and less environmental impact**.

The **refrigerated freezer table for restaurants uses R290 refrigerant gas**: a green alternative used in industrial and commercial refrigeration.

**Excellent cooling properties, energy efficiency and environmental friendliness** make this table the best choice for your establishment. Buy it online and take advantage of the **excellent value for money!**

**Browse the online catalogue** and choose from the available options the one that suits you best: grids, slides, drawers or castors.

## Dimensions

Dimensioni esterne	2230x700x850 mm
Dimensioni griglie	330x555 mm
Dimensioni interne	1692x570x580 mm
Spessore coibentazione	60 mm

### Technical data

Capacità	560 Lt
Classe energetica	C
Compressore	embraco emte2134u
Consumo elettrico	6.13 Kw/24h
Frequenza	50 Hz
Gas refrigerante	R290
Peso	145 kg
Potenza Elettrica	0.6 kW
Refrigerazione	ventilated
Sbrinamento	hot gas
Temperatura ambiente massima	43 °C
Temperatura d'esercizio	-22 -17 °C
Termostato	dixell/carel
Voltaggio	230 V

### Standard equipment

In dotazione	1 Griglia per porta
