

Cod: 957

## Table-top dough sheeters with 710 mm belts

### Description

Bench-type dough sheeters designed for minimum space requirements. Very compact dimensions even when the machine is open, due to the absence of an underfloor and leaf catcher. Fully manual movement of the belts by joystick. Easy cleaning of scrapers. Hard chrome-plated cylinders. Anticorodal aluminium shoulders. Roll holder at the end of the platens for easy rolling of the sheet on the rolling pin. Handle for very precise dough thickness adjustment. Stainless steel grilled safety guard: excellent visibility of the sheet; possibility to roll dough through the guard. Cylinder opening from 0 to 40mm.

### Dimensions

Diametro cilindri	60 mm
Dimensioni esterne	1480x870x600 mm

Dimensioni tappeti	710 mm
Lunghezza cilindri	496 mm

### Technical data

Alimentazione	Electric
Frequenza	50 Hz
Peso	89 kg
