

Cod: 963

Sheeter with 600x950 mm belts

Description

Manual dough sheeters that can process any type of dough up to very thin thicknesses. The rolling cylinders are hard chrome-plated, ground and polished. The scrapers are easily removable for cleaning. The bearings are all shielded to prevent flour infiltration. The conveyor belts are variable speed to avoid wrinkles in the dough sheet. The table tops can be raised so as to reduce the overall dimensions when the machine is at rest. The electrical system is low voltage and has dual controls (manual and foot pedal). The guards are of the accident-prevention type and are connected to the electrical system by means of limit switches. The machine is mounted on wheels for easy movement. 0 to 35 mm cylinder opening.

Dimensions

Diametro cilindri	70 mm

Dimensioni esterne	2780x1010x1160 mm
Dimensioni tappeti	600x950 mm
Lunghezza cilindri	600 mm

Technical data

Alimentazione	Electric
Frequenza	50 Hz
Peso	215 kg
Potenza Elettrica	0.75 kW
Potenza motore	1 hp
Voltaggio	400 V
