

Cod: 1175

Manual pasta cooker for connection to 3-basket hood

Description

Fast and versatile counter-top pasta cooker. Simply place the single portions of frozen pre-cooked pasta in the baskets and immerse them in water. Cooking is always perfect because the electronic timer alerts you when the pasta is ready. Three different types of pasta can be prepared at the same time to suit all tastes. Prepare one portion after another by working continuously to meet rush hour demands. Dough loading capacity: max 2 portions per basket.
