

Cod: 1226

## Water condensing pasteuriser capacity 40 litres

### Description

Excellent automatic pasteuriser for low and high pasteurisation. Essential in content but highly efficient in performance. Regulated in generates for heating between 60-90°C and for cooling between 2-6°C (except syrups or sugars)

The pasteurisation cycle lasts 2 hours, inserting about 40 litres of mixture. The simple electronics give the possibility to select the final temperature, so the duration can be calculated.

### Dimensions

Dimensioni esterne	600x850x1335 mm
