

Cod: 1240

Multi-function machine with air condensation capacity 7 litres

Description

Multifunctional agitator machine with long-life polyethylene (PE) scraper blade. All parts in contact with the mixture or ice cream are made of stainless steel and non-toxic material that can be easily accessed and removed for cleaning. The vertically positioned production tank allows the transformation of the mixture to be controlled during the entire working phase. Automatic ice cream extraction. Discharge of ice cream or other products directly at the bottom of the production tank for faster extraction. Control panel with speed variator, density control, PLC and reset allows adjustment of stirring speed and ideal cycle duration in relation to the type of mixture. Double lid for inserting ingredients with the stirrer in motion. Magnetic micro for stopping the stirrer when opening the lid. Adjustable tray support for the use of different container sizes.

Dimensions

Dimensioni esterne	600x850x1335 mm
