

Cod: 42310953

Refrigeration cell height 2540 mm price excluding motor 2740x2940x2540h mm

Description

Combined multi-unit units

Little space in the kitchen to buy one appliance at a time? The easiest solution is multiple units, professional kitchen accessories that combine several small appliances together.

A few examples of multiple units for bars and restaurants:

- blender and mixer for cocktail preparation;
- ice breaker and blender for milkshakes and smoothies;
- juicer and blender for juices and smoothies;
- multifunctional cutter;
- multifunctional appliances with blenders, ice breakers and blenders.

Why choose a combi appliance?

Combination appliances are an undoubted advantage for those who have little space in the kitchen but do not want to give up any of the essential tools for their work. They also allow considerable energy savings because the power supply is unique and covers several functions at once. It also makes it easier for bartenders and chefs to prepare various foods and drinks, having everything they need at hand in one tool.
