Cold room height 2540 mm price excluding motor 3740x4540x2540h mm

Description

Hotel hairdryers are hairdryers with variable power, with a cold or hot air jet, to be placed in the bathroom for hotel guests.

The hotel hair dryer has a base plate that can be fixed to the wall for easy handling.

On our site you can find single hairdryers or hairdryer kits with several hairdryers, for those who need to cover several rooms.

Features of hotel hairdryers

The hotel hair dryer has a variable power from 1.2 Kw to 2 Kw. It is also possible to choose a high-power professional hairdryer model, 1800W, in this case without a base but to be stored in a cupboard or drawer. All hair dryers are equipped with a power and temperature regulator to choose the most suitable airflow, as well as a self-protection system against overheating.

The noise level is low.
