

Cod: 1332

Manual Filling-Dosing Machine for Creams 3l

Description

Manual Filling-Dosing Machine for Creams 3l. Machine body in aluminium obtained by die-casting and then polished. Funnel - cylinder - piston - injectors - lever - push nosepiece are in stainless steel. Fittings and valve are in aluminium. A silicone gasket ensures a perfect seal between cylinder and piston and allows the use of very liquid creams without leakage. Funnel 3l.
