

Cod: 6552

Professional Ventilated Ice Cream Display Case Capacity 600 Lt Round Shelves -5 -20 °C

Description

Capacious and spacious Vertical Refrigerated Ice Cream Display Case, equipped with refrigerated shelves to display your delicious cold products at their best. With its special hexagonal shape, it is the right product to make your venue even more elegant. It guarantees the perfect preservation of cakes and other pastry products, thanks to the negative ventilated refrigeration (operating temperature -5° -20° C). Suitable, therefore, for ice-cream parlours, pastry shops or bars. It is equipped with robust tempered glass on all 6 sides, with a single opening door. Inside, 5 rotating shelves are positioned to ensure full display capacity. On the underside there are practical wheels for easy movement; inside there are LED lights. Choose your colour from the options. Round shelves.
